### Work Experience:

- **ConnectWise Ltd. (March 2020 – Present)**

- **Cyber Security (Fusion) Platform R&D**

- Technically sophisticated professional with 4.8 years of experience in the areas of software design and development.

- Application Name: Juno Platform.

- i. Working on the R&D project as a **Senior Software Engineer** to develop the new (Juno Fusion) Tasking Ecosystem of ConnectWise.
    - ii. Implemented responsive and high available Microservices using Go Lang for the ConnectWise platform to handle partner transactions and to take appropriate actions on endpoints.

- **Amdocs Ltd. (Feb 2016 – March 2020)**

- **Amdocs Billing R&D**

- Application Name: Charging & Rating.

- i. Worked on Amdocs R&D project as **Software Developer Experienced** in the development of new charging and rating Microservices using Spring Boot for faster deployment, responsiveness, and high availability of Amdocs billing system.
    - ii. Worked on the development of existing and new (Microservices) modules to connect with Kafka messaging stream.
    - iii. Worked on the development of changing existing rating and charging monolithic applications to Microservices architecture.

Involved in requirement gathering, design & analysis of the new feature in the core product.

Responsible for preparing technical design documents and low-level design documents.

### Education:

- Bachelor of Technology in 2015: College-Global Institute of Technology, University- Rajasthan Technical University secured 65%.
- 12<sup>th</sup> in 2011: School - Jaipuriya Vidyalaya, secured 61%.
- 10<sup>th</sup> in 2010: School – Jaipuriya Vidyalaya, secured 68%.

### Technical Skills:

- Programming Languages: C, JAVA, and J2EE.
- J2EE Technologies: Servlet, JSP, JDBC, Hibernate, J2EE to Kafka, Spring Framework, Spring Boot, Spring MVC, Spring WEB, Spring Security, Spring Cloud Stream, Microservices, Kafka, Docker, Jenkins, Prometheus.
- Database: Oracle DB.
- Development Tools: Eclipse IDE, SQL Developer, IntelliJ Idea VS code editor.
- Utility Tools: Git, Perforce, MS Office.
- Operating System: Windows, Linux.

### Other Skills:

- Strong coding hands-on experience in core java and object-oriented concepts.
- Proficient in the design and development of various applications using JAVA/J2EE technologies like WEB services, Spring Boot, Spring WEB, Spring JPA, Hibernate, and maven as Dependency Management tool.
- Adept in the end-to-end development of software products from requirements analysis to designing, coding documentation, and implementation using Eclipse IDE, IntelliJ IDEA, Apache Tomcat, Oracle DB, Perforce.
- Good Knowledge of RESTful WEB Services, good experience in creating an end to end applications using Spring Boot and design patterns.
- Able to learn and comprehend new systems and methods quickly.
- Excellent communication and interpersonal skills with abilities in generating new ideas and resolving complex software issues.

### Training, Certifications, and Achievements:

- Among the finalists of the first-ever **Amdocs Astro hackathon** and won the prizes for the same.
- Developed a multipurpose dashboard to monitor the production of critical resources like JMS, JAVA Listeners using Spring Boot, Spring JPA, and JavaScript.
- Developed API as WEB SERVICE client to monitor application Web Services.
- Training in Amdocs Academy on Core Java, AWS, Spring end to end. Completed Amdocs java certification.
